

Sewee Longleaf Conservation Cooperative

Longleaf Cost-share Program Criteria

- 1) Project must be located within the SLCC geographical area.
- 2) Project must include restoration or maintenance of longleaf pine habitat (Rx fire, site prep, planting, invasive treatment).
- 3) A 50% cooperator cost-share is required.
- 4) Cooperator agrees to leave habitat improvements in place for at least 10 years.
- 5) No cost-share payments will be made for practices undertaken prior to written notice of final approval.
